## WORK EXPERIENCE

### FULL STACK WEB DEVELOPER

Freelance | Work from home

2024 - NOW

As a full-stack developer and founder of a mini-startup, I build responsive websites and full-stack applications for clients and personal projects using Next.js, React, Tailwind CSS, MongoDB, and Firebase. I developed a full-stack client management app for a client and created many landing pages and websites as part of my daily work. I integrate my graphic design skills into my projects, ensuring visually appealing and functional web solutions. Working closely with clients, I deliver customized, high-quality projects while continuously improving my development skills.

### GRAPHIC DESIGNER

Freelance | Work from home

2020 - 2024

As a graphic designer and digital marketer, I have specialized in branding businesses, creating posters, business cards, ads, and much more. Utilizing tools such as Adobe Photoshop, Illustrator, CapCut, and Adobe Premiere, I have successfully worked with over 100 businesses and companies. I also manage Instagram and Facebook accounts and provide content writing services for clients, delivering customized, high-quality design and marketing solutions to help them achieve their goals.
